TOLEDO HYDRAULIC BLADE SHARPENING SERVICE - 26" BLADE

SKU: TH-RS26

PRICE: \$240.00

PRODUCT DESCRIPTION

Blades We Sharpen:

- Beveled
- Scalloped
- Notch Scalloped
- Advanced Scalloped
- Micro Slotted*

As long as there are no imperfections, cracks, or breaks. Your blade can be resharpened. Once your blade is sharpened its is indistinguishable from a new blade. Except for the Overall Outer Diameter.

Each blade is sand blasted and polished. Then both the primary and secondary bevel is brought to primary specifications.

All of our sharpening is done on same equipment, same operators, and same machines as new blade. That way we can guarantee the quality of the resharpening process.

*Micro Slotted blades cannot be re-slotted once the shortest slot is gone we would recommend a replacement.

The customer is responsible for shipping to and from the warehouse. The shipping purchased right now is for RETURN shipping. If you would like us to handle making the label to get the blades or blades to us. We can do process that label for you.

If you have any questions please feel free to give us a call. Any Sharpening Services purchase after hours via the website you will receive a phone call and/or email the next business day.
